

Taylor Swift

Tyler Dean

I never thought that i could fall for just one girl
I didn't think someone would ever rock my world
She's cool tall beautiful with long blonde curls
I like to take her for a drive I need a song that'll turn head
One that says something that i've never said
Make her turn a light as shade of red
And really come alive Maybe she's just a little too pretty
Outta reach and way too busy
What can i do when the honest truth is
I want a girl... i want a girl
I want a girl like taylor swift First time i heard her we were only 13
I remember where i was when she started to sing
Now that were older i just wanna be seen
Hangin out talkin bout the two of us
Maybe she's just a little too pretty
Outta reach and way too busy
What can i do when the honest truth is
I want a girl... i want a girl
I want a girl like taylor swift Call her agent call her lawyer too
Hey mr swift i need to talk to you
Hey mr dj why don't you send it on through Cause she might be listenin
Maybe she's listening
Please be listening I know that maybe she's a little to pretty
Out of my reach and way to busy
What can i do when the honest truth is
Everytime i look she's on the top of my wish list
I wanna girl i wanna girl
I wanna girl like taylor swift
Hey man that's just how it is
I wanna girl
I need a girl
I wanna girl Like taylor swift 615-483-7793 call me text me
